The following Savings Banks were chartered at the last session of the Legislature, viz.:—Amherst, Chelsea, Millbury, North Brookfield, and Winchendon.

The following Five Cents Savings Banks were also chartered at the last session, viz.:—Boston, People's, and South End, in Boston; Warren, in Danvers; Newburyport, East Cambridge, Charlestown, Lowell, Woburn, Worcester, and Springfield, and are all in operation but the South End.

NOTE.—By reason of different interpretations of the requirements contemplated in the Blank Return prescribed by law much incongruity prevails, and it is found necessary in some cases to seek explanation of the bank officers.

The failure to attain uniformity of "statement" may in a few instances be attributed to inadequateness of perception on the part of those making the return; but while this is true, it is not to be denied that there is good ground for difference of opinion in regard to the intent and meaning of some of the interrogatories. The thirteenth and fourteenth questions may be cited as liable to misconstruction; they certainly might be made clearer by amendment. The seventeenth, also, requiring the "amount of reserved profits *at* the time of declaring the last dividend," is construed by some to have reference to the sum of accumulated profits before and at the time of declaring the dividend; and by others, correctly, to mean the balance of "*reserved profits*" on hand after *deducting* the dividend.

It would seem that the meaning of questions embraced in the Blank Return should be so apparent that but one construction could attach; conceding this as self-evident, an examination of the present requirements will clearly show the desirableness of a careful revision of the form of blank.

By Acts of the legislature of 1859, the Capital Stock of the North Bank, in Boston, was authorized to be increased \$250,000, of which sum \$110,000 is certified to have been paid in; that of the Atlas Bank, in Boston, was authorized to be increased, under the general Act of 1851, in the sum of \$500,000, all of which is certified to have been paid in; and that of the Salem Bank was authorized to be reduced from \$250,000 to \$187,500—its present capital stock.

The Bass River Bank, of Beverly, being in the hands of Receivers, no statement of its condition appears in this abstract.

The following banks have failed to return correct answers to the questions, "Balances due from other banks" and "Amount of balances, &c., for redemption of bills," the amount returned by them including both:—Andover; Merchants', Newburyport; Naumkeag; Cambridge City; Chicopee; Mount Wollaston and Falmouth.

The following banks return the same answer to both questions:—Danvers; City, Lynn; Asiatic; Mercantile; Cambridge; Holyoke; Hampshire Manufacturers'; Franklin County; Merchants', New Bedford; Barnstable.

---

NOTE.—By reason of different interpretations of the requirements contemplated in the Blank Return prescribed by law, much incongruity prevails, and it is found necessary in some cases to seek explanation of the bank officers.

The meaning of questions embraced in the Return should be so apparent that but one construction could attach; conceding this as self-evident, an examination of the present requirements will clearly show the desirableness of a careful revision of the form of blank.

The failure to attain uniformity of "statement" may in a few instances be attributed to inadequateness of perception on the part of those making the return; but while this is true, it is not to be denied that there is good ground for difference of opinion in regard to the intent and meaning of some of the interrogatories.

In returning the "Amount of bills in circulation of five dollars and upwards," the Lynn Mechanics'; Merchants' and Mercantile of Salem; Appleton and Wamesit, of Lowell; Dedham; Wrentham; Cabot, of Chicopee; Mechanics', of New Bedford, and Metacomet, of Fall River, make the unit figure *less* than five. In two or three instances where dilapidated bills of five dollars have been returned to the bank of issue and redeemed at a depreciated valuation, the statements are, doubtless, correct; in the other cases, however, there is evidently an error, or a misconception of the proper form of rendering the statement.

The seventeenth question, requiring the "amount of reserved profits *at* the time of declaring the last dividend," is construed by some to have reference to the sum of accumulated profits before and at the time of declaring the dividend; and by others, correctly, to mean the balance of "*reserved* profits" on hand after *deducting* the dividend.

It is desirable and proper, in all cases where, in the answer to the second interrogatory upon the blank, the unit figure is less than five, to have stated in a note upon the margin of the Return, the occasion of the apparent incongruity. The explanation would be inserted in the abstract, and all doubt or conjecture thereby removed.
